- All-round legal support to a major UK company providing independent expert review and certification services in the course of staff reduction at its representative office in the Republic of Kazakhstan, including company representation in court to settle labor disputes with employees.
- Advice on a range of matters and legal support in the process of staff reduction and termination of labor relations with employees by agreement of the parties for a representative office of a large transnational pharmaceutical company located in the Republic of Kazakhstan.
- Preparation of a special corporate pension plan for the employees of the local representative office of a major foreign company.
- Legal support in the process of setting up at a number of companies a standing body for pre-trial review of labor disputes (conciliation commission), including drafting of the documents required for the conciliation commission to be set up and function properly.
- Advising foreign law firms and a large service company on labor matters relating to global reorganization of its business affecting subdivisions in Kazakhstan, including legal implications and risks applicable to labor relations and arising due to the change of the employer company name, reissue of the powers of attorney confirming the employee official powers and amendment of labor documents, transfer of employees to another employer, coordination of the reorganization process with the trade union organization and other representative bodies of the labor collective, and other matters.
- Conducting seminars dedicated to topical issues of legal regulation over labor and labor-related relations arising in connection with the adoption of the 2015 Labor Code of the Republic of Kazakhstan and the 2017 revisions to the legislation on foreign labor engagement and migration legislation, including: review of the Kazakh labor legislation and the law-application practice (including judicial practice) relevant to problem issues; analysis of client-simulated disputable situations; review of material problems and risks and the methods to resolve the problems associated with the application of the revised Kazakh labor legislation.
- Regular advice to Ius Laboris, an alliance of world's leading HR law firms, on various local law matters, including issues of introduction of incentivizing programs at local subdivisions of foreign companies and partner company's employee training programs (X-Sell Partner Programme) and adaptation of such programs to the Kazakh legislation accompanied by pertinent risks evaluation; corporate officer liability in cases of advertising information dissemination at a private event in violation of the relevant statutory requirements; different aspects of applying flexible work time regime introduced by an electronic payment systems company, taking into account the peculiarities of Kazakhstan legislation; personal data protection in the context of a UK company's joint project with the Ministry of Finance and Ministry of Education to establish in Kazakhstan an educational center for auditor professional skills improvement, and formalization of labor relations with the company representatives; various aspects of labor relations as part of appointment of a company employee to the position of a member of the management body in accordance with the Kazakh legislation; office vehicles provision to employees and compensation for costs to employees using personal vehicles for official purposes; termination of labor relations;

use of leased labor in the forms allowed in Kazakhstan; drafting of all required documents for execution of the above processes.

### HEALTHCARE, MEDICINE & PHARMACEUTICALS

- Advising a number of foreign pharmaceutical companies regarding the tax risks arising in connection with labeling of medicines by identification and traceability means due to a necessity to register in Kazakhstan as a taxpayer with obtainment of tax numbers and electronic digital signatures and subsequent participation in the system for labeling and purchasing the identification codes, including assessment and ranking of potential tax risks, depending on the form of presence of foreign pharmaceutical companies in Kazakhstan, conditions of purchasing the labeling codes and their subsequent placement on medicine packaging, including with a view to practical peculiarities of introducing the labeling system; preparing recommendations for the clients on optimal lawful scenarios of participation in the system of labeling of foreign companies to mitigate the tax risks; drafting of a proposal on amendment of the Kazakhstan legislation on these issues to mitigate or eliminate the tax risks for foreign pharmaceutical companies.
- Advising a number of pharmaceutical companies on the issues relating to compliance with requirements of the antitrust legislation on import, wholesale and retail sale of medicines in the Kazakhstan territory in the framework of tracking of the products resale prices; drafting of the required documents and instructions.
- All-round advice to a pharmaceutical company on organization of marketing campaigns / activities on promotion of the client's products in the territory of the Republic of Kazakhstan and related risks, including the issues of ethics of promotion and advertising of medicines, anti-corruption requirements, personal data protection, risk of recognizing contractual relations with a contractor as labor relations, setting up of a permanent establishment in Kazakhstan, and other tax risks for the company when carrying out the above activities; evaluation of the business models for activities contemplated by the company from the viewpoint of risk degree.
- Comprehensive advice on the issues of promotion of medicines in Kazakhstan by way of an Internet platform for promotional activities with potential receipt of cashback by ultimate buyers, including the aspects of tax, civil, pharmaceutical, antitrust, anti-corruption, advertising, labor legislation and regulations in the sphere of personal data protection to mitigate to the maximum extent possible the compliance, tax, civil risks, as well as the risks in the sphere of circulation of medicines subject to specifics of regulation of this type of goods.
- Advice to the large pharmaceutical companies on the issues of pharmaceutical activities regulation in Kazakhstan, including advertising, marking (labeling), certification and registration of medicines and medical devices; permitted methods and scenarios for healthcare and pharmaceutical professionals to participate in the promotion of such goods and different marketing events; lawfulness of supporting the users of medical products in the territory of the Republic of Kazakhstan via a foreign call-center ("telephone hotline"); forming the conditions of access to a pharmaceutical company's website and its use by the website visitors subject to the requirements of the Republic of Kazakhstan's legislation governing informatization, intellectual property protection, personal data protection and healthcare; building contractual relations with pharmacy chains (on a merchandising-like basis); criminal and administrative liability and the current practice of sanctions against statutory violations; destruction of medicines, pharmacovigilance, and local compliance review of standard operating procedures.
- Advising a large pharmaceutical company on the protection of intellectual property rights (patent rights) to medicines in the Republic of Kazakhstan; conducting clinical trials in

Kazakhstan with a focus on the specifics of such trials under the national legislation of the Republic of Kazakhstan, supranational legislation of the EAEU and applicable international rules of appropriate pharmaceutical practices, including comparative analysis of clinical trials against observational studies; charitable-and-trial use of medicines intended for the prevention and treatment of the socially significant and orphan diseases; procedure for collecting and exporting genetic samples; procedure for the collection and storage of personal and other data during clinical trials; peculiarities of agreement between the parties to clinical trials (clinical base, investigator, sponsor, subject and customer) existent in practice in Kazakhstan.

#### LEGAL SUPPORT OF BUSINESS. INDUSTRY AND TRADE

- Comprehensive audit (inventory-taking) of all contracts of a major pharmaceutical company, including preparation of the contracts spreadsheet and their classification; work with current contracts; drafting of distributor agreements and model agreement drafting recommendations, review and adjustment of agreements with a view to execute and/or extend them; preparation of letters to counterparties and drafting of supplementary agreements to contracts in connection with their termination, renegotiation or withdrawal therefrom; legal support in the process of contracts and supplementary agreements approval and signing; meetings, telephone conversations and correspondence with counterparties.
- Advice to a trading company regarding legislation requirements of the Republic of Kazakhstan on advertising, specifically, language of advertising materials and advertising on online platforms, and liability for violating such requirements subject to the latest legislation amendments in this sphere and the law-application practice existing in Kazakhstan (including judicial practice); analysis of sample advertising materials of the company in the form of video clips, audio advertisements and images with text (banners).
- Drafting of a review on the issues of the Kazakhstan and EAEU legislation and law-application practice existing in Kazakhstan regarding parallel import of different categories of goods, including transport vehicles, as well as analysis of the possibility to apply the principle of exhaustion of an exclusive right to a trademark with respect to goods, which were lawfully introduced into civil circulation in the territory of any EAEU member state directly by a right holder to the trademark or other persons with the right holder's consent, description of the procedure for importing transport vehicles to the territory of Kazakhstan, requirements to the imported goods and introduction of goods into civil circulation in the territory of Kazakhstan.
- Advising a foreign company producing paper on the issues of its inclusion in the Kazakhstan register of domestic producers of goods so as to be prepared for withdrawal from the national regime for public procurement of copy paper subject to the current legislation and contemplated revision of the legislation rules on the issues of confirmation of the status of Kazakhstan/domestic producers.
- Advising a company producing sugar regarding the key tax obligations and risks when importing, storing and selling sugar in the Republic of Kazakhstan by a non-resident from the standpoint of the Kazakhstan legislation and applicable international agreements; lawfulness of the scenarios considered by the company for doing its business; other scenarios to effect the transaction, which would be the most advantageous for the company from the standpoint of mitigation of its tax and civil risks.
- Advising an international company on the issues of requirements of the Kazakhstan legislation on trading activities, including language requirements, and of technical regulations of the EAEU to products labeling, including assessment of the company's risks in case of absence of the required labeling on the product packaging, as well as in

case of presence of labeling containing outdated information on the products; mandatory confirmation of products conformity (in the form of certification or declaration, depending on the type of products), without which products cannot be released into circulation on the EAEU market, including in Kazakhstan.

- Legal support to a major oil company in the course of judicial proceedings conducted without due regard to an arbitration clause under a contract between the parties to the dispute and in a simplified form without participation of the defendant that became aware of the issued judgment only at the stage of enforcement and attachment of the defendant's bank account, including successful challenging of procedural actions of the judge and claimant, turn of judgment and, consequently, its revocation.
- Advising a private company registered in the AIFC on the issues of return of perfume and cosmetics products and expert examination of quality of such products, guarantee terms applicable to such type of products from the viewpoint of legislation on trade, technical regulation and consumer protection, distribution of costs related to expert examination between the seller and the buyer; drafting of the form of the seller's letter of response to the buyer's claim on return of products and expert examination of quality.
- Advising a local company, a member of the network of the world famous supplier of foodstuff, drinks and other everyday goods on the issues of settling of disputes arising with distributors; support of the procedure for termination of distribution agreements, pre-trial dispute settlement, and company representation in court.
- Advising a major company on the issues of collection, storage, processing of personal data of potential Kazakhstan customers in the course of e-commerce, distance selling subject to different business models (via a call center located in Kazakhstan and abroad), organization of advertising of goods on television, price formation, tax aspects of such activities, legislation applicable to such activities, potential scenarios of returning the distantly bought goods, and other consumer protection aspects.
- Comprehensive advice to a client on the issues of statutory regulation of work of an Internet shop and takeaway outlets in Kazakhstan, including comparative analysis of potential corporate forms of presence in the Republic of Kazakhstan; licensing and obtainment of other permitting documents; versions of contractual structures and electronic document flow; tax structuring of business; legislation requirements to specifics of circulation of different types of goods in terms of labeling, stock movement, certain categories of goods (excisable goods, animal products, tobacco products, etc.), which fall under special requirements to sale, movement, storage, and goods that are subject to mandatory labeling/traceability; sanitary and epidemiologic and fire safety requirements to shopping premises; general legislation requirements on consumer protection and trade, including with respect to return of goods, documentation of stock movement, other aspects of work of an Internet shop; existing restrictions on the list of goods (including foodstuff), which may be implemented remotely using the Internet; formation of labor relations; collection, processing and protection of personal data in the territory of the Republic of Kazakhstan.
- Ongoing advice to a leading US oil company on contract execution matters.
- Advising a foreign company on general requirements of the Kazakhstan legislation with respect to possible forms of business organization and doing business (including hire of employees without forming a structural subdivision or setting up a subsidiary, execution of agency agreements with individuals, personnel lease contracts with recruiting agencies, etc.) at the initial preparatory stage (marketing studies, meetings with potential clients, negotiations, etc.) for the purposes of promoting the company's equipment in the territory of the Republic of Kazakhstan, identifying the appropriate measures to mitigate the legal risks.

- Advice to a major foreign company on the issues of movable and immovable property transfer in the framework of the company's business restructuring project in Kazakhstan.

#### REGULATORY COMPLIANCE. M&A

- Due diligence of a number of Kazakh companies (subsoil users and "resource-related" companies providing oil transportation by sea, a large pharmaceutical company, a large transportation company, and companies active in the restaurant business) in connection with alienation of participation interests/shares in favor of foreign companies; due diligence of a local subdivision of a generic manufacturer as part of its merger with a major international pharmaceutical company.
- Due diligence of a large pharmaceutical company for the purposes of obtaining a loan from an international financial organization.
- Due diligence of activities of a major foreign company as to compliance of its activities with antitrust legislation, including checking of model forms of the company's commercial contracts, internal documentation regulating the company's activities, interview with managing and other employees of the company.
- Comprehensive advice to a major foreign manufacturer of specialized fats, mayonnaise, vegetable oil and ketchup in a project involving renovation of a foodstuff (vegetable oils) production plant in Almaty regarding permits and approvals necessary for the plant to amply and legally function from the standpoint of environmental legislation, industrial safety, nature management, occupational health and safety, sanitary-and-epidemiological wellbeing, phytosanitary control, safety, marking, packaging and storage of food products, power saving, fire safety, equipment modernization, transportation, cryptography, and other aspects of production activities.
